Than Have It Inside!

Before Detox

➤ NO PAIN

➤ NO EXERCISE

After 15mins

➤ RELAXING

➤ VISUAL

RESULTS

After 30mins

WHAT HAPPENS DURING THE TREATMENT?

The therapy is as relaxing as it is beneficial. The treatment lasts for approximately 30 minutes.

- Immerse your feet in warm water inside the foot spa.
- The foot spa is then set to the appropriate settings and ionization levels.
- Sit back and relax whilst the PediTox unit begins to help draw toxins out of your body.
- The excreted toxins may be seen in the water.
- The water will change colour and consistency as your detox progresses.
- *THERE MAY BE LYMPHATIC FAT OR MUCUS FLOATING ON THE WATER—DO NOT BE ALARMED AS THIS IS NORMAL.*
- An initial course of 5 – 7 treatments is recommended. (Once or twice a week.)

FREQUENTLY ASKED QUESTIONS

NOT RECOMMENDED FOR:

- Persons with a pacemaker
- During pregnancy
- Persons with implanted organs
- Persons with epilepsy
- Persons with type 1 diabetes
- Feet with open wounds

If in doubt, please consult your GP

HOW DOES IT MAKE YOU DETOX?

The machine does not **make** your body detox. It helps to stimulate your own system to enable self-detoxification and rebalance your body, as shown in research using medically approved equipment.

HOW LONG DO RESULTS LAST?

Results depend upon your lifestyle. An initial course of treatments are recommended, followed by monthly top up sessions.
